## **OUR STORY**

Schlaegel's Popcorn began in 1970 when our founder, Gary Schlaegel, began growing popcorn on the family farm and sharing it with family and friends. Impressed by the delicious popcorn, they encouraged him to start a business. In the 1990s, Gary began offering caramel popcorn made from a treasured family recipe. Over 50 years later, we're still growing our own popcorn on the same family farm. The popcorn business has grown over time, and now we offer over 20 flavors of popped corn, as well as two varieties of unpopped. Every step of the process — from growing to packaging — is done on the farm where it all started. We promise you won't find a tastier, fresher, or more satisfying snack than Schlaegel's Popcorn!
